11 JUN 1971

MEMORANDUM FOR: Chief, Executive and Planning Division

SUBJECT

: IOS - Administrative

(Management Improvement Program)

- 1. Reference is made to your request of 24 May 1971 for a report on goals and accomplishments in connection with the annual Management Improvement Program.
- 2. Forwarded herewith, for possible inclusion in the consolidated Office of Security report, are several goals for fiscal year 1972, submitted by components of this Directorate. Also included are comments on several management effectiveness and cost reduction accomplishments that have previously been set forth as goals in fiscal year 1971.

Deputy Director of Security (IOS)

Operational Support Division

I - Management Effectiveness Goals (FY 72)

## Brief Description of Effort Planned During Upcoming Year

- 1. Formalize procedures with Agency components requesting Operational Support. Where time permits, written requests will be obtained from requestors setting forth all data pertinent to the support desired. This may be supplemental to the initial oral requests, and will be required only where warranted.
- 2. Establish a more positive procedure to permit identification and recovery of Operational Support material from SR & CD files. In the "Operational Support General" category, all general activities have been serialized into one catch-all file. Certain requirements are received which could be a follow-on to an earlier activity or which requires correlation with other information. A block of files, consecutively numbered has been obtained and exclusively assigned to the Operational Support Division. Whenever necessary, a separate subject file will be opened.
- 3. Restructure the Overseas TDY Standby roster to reduce the total number of personnel involved, yet be more responsive to requests. Fully documented, qualified personnel will be available in IOS Headquarters.

Goals or Objective of Proposed Effort

- 1. There have been instances in the past where misinterpretation or confusion in complex cases has resulted from oral requests. The written requests will more clearly detail the desired support and eliminate misunderstanding.
- 2. The use of the subject files will permit more ready identification of persons, corporations, or activities which have been of previous interest. Instead of a serialized inclusion into the general file (75-149-8796) the activity will be separately and specifically identified.

Rather than a large pool of documented personnel at the Office to service requirements originating in any part of the country, qualified personnel will be available in two

# Operational Support Division Annual Management Improvement Report

30 June 1971

III - Management Effectiveness Accomplishments FY 71

	Summary of Improvement or Estimated Savings			for Each	Activity to Which Saving
	Cost Reduction Achieved	of Next Three Fiscal Years			Will be Programmed
		1972	1973	1974	
•	Office space allocated to the Support Branch/Operational Support Division at the Headquarters Building has been redesigned to:     a. Permit assignment of an addi- tional desk supervisor at Headquarters where almost all of the Support requests				No measurable fiscal savings will result. Greater service to Agency components requesting operational support will be afforded.
	are initiated.  b. Eliminate two four-drawer safes which were released to other activities.				
25X1	The physical division of the Support Branch between Headquarters and the  presents a major  problem in the expeditious transmission of sensitive classified information in complex support functions. An in-depth survey of communications problems revealed that the green line telephones and the Magnavox "Telecopier" are the most rapid and secure means of trans- mitting classified data between the two Support Branch elements. Unfortunately, the Telecopier is not located in Opera- tional Support space nor under control of Operational Support personnel.				Again, no measurable savings. Better service to requesting components is the goal.

Summary of Improvement or	Estimated	Savings fo	r Each	Activity to Which Savings
Cost Reduction Achieved		Three Fisc		Will be Programmed
1. Developed a new form to be used by the Special Facilities Branch to take the place of a number of forms.	1972 \$300.	1973 \$300.	1974 \$300.	
2. Procedures were established where- by the personnel of requesting components would make payment for hotel rooms, auto rentals, etc. This eliminates the paperwork required to process Forms 1716, obtaining allotment and/or MOR numbers, etc.				
3. Scheduling Office personnel for technical training is being done on a more realistic basis. Emphasis is on individual adaptability and long-range potential for operational use.

I - Management Effectiveness Goals (FY 72)					
Bı	Brief Description of Effort Planned During Upcoming Year		Goals or Objective of Proposed Effort		
1.	Initiate changes in Division and Branch statistical reporting procedures.	1.	To eliminate unnecessary reports and to make reports more responsive to management needs.		
2.	To continue a program of monthly divisional meetings.	2.	To improve the quality and quantity of our work as well as keeping all Division personnel informed of policy and procedural changes. In addition thereto, Branch supervisory personnel have been urged to become more familiar with their specific areas of assignment and the customers they deal with to improve the quality of their work and "educate" their customers concerning security requirements.		
3.	Rotating the assignment of Investigations Division professional personnel within the Branches.	3.	To achieve "cross-fertilization" and to provide for flexibility and depth within the Division.

Agency by almost 50%.  2. The destruction of temporary work file by the Overt Branch upon closing the case has effected a large file reduction (two safes will be turned into Logistics) as well as reduced work requirements for both professional and clerical personnel.	\$1303   \$1063   \$375	2. To other work areas within the Investigations Division.					
3. As a result of an Investigations Division Survey in the last half of FY 70, a copying machine was procured for the Division for the reproduction of Personal History Statements and biographic information. Considerable savings were effected both in time and monies since only the required number of copies are made and the investigative assignment reaches the field in one or two days earlier.	Not easily susceptible to measurement or evaluation in terms of dollars, our estimates are:  \$1000 \$1000 \$1000	3. To other work areas within the Investigations Division.
